

Preliminary Recommendations for the Moore County Thoroughfare Plan

1. US 1 – Construct a new facility on new location between the Lee County Line and the existing four-lane facility. Transportation Improvement Program (TIP) project R-210
2. NC 211 – Widen to multilane facility between the Southern Moore County Planning Area Boundary and the Montgomery County Line. TIP projects R-2812, R-2591
3. NC 24-27 – Widen to multilane facility between the Carthage Planning Area Boundary and the Montgomery County Line. TIP project R-2528
4. US 15-501 – Widen to multilane facility.
 - a. From the Lee County Line to the Northern Carthage Planning Area Boundary
 - b. From the Southern Carthage Planning Area Boundary to the Southern Moore County Planning Area Boundary
5. NC 22 – Widen to multilane facility between US 15-501 and the Southern Moore County Planning Area.
6. NC 705 – Widen to multilane facility between SR 1419 and the Randolph County Line.
7. Widen the following facilities to 2-12 foot lanes. (Safety Improvements)
 - a. NC 22 between Chatham County and NC 24-27
 - b. NC 24-27 between US 15-501 and the Harnett County Line
 - c. NC 73 between US 15-501 and NC 211
 - d. NC 705 between SR 1442 and NC 211
 - e. SR 2023 (Lakebay Road) between NC 605 and SR 2175
 - f. SR 1210 (Beulah Hill Church Road) between NC 24-27 and the Southern Moore County Planning Area.
 - g. SR 1224 (Doubs Chapel Road) between US 15-501 and SR 1229
8. Other problem areas
 - a. NC 705
 - b. SR 1001 (Lobelia Road)
 - c. SR 1239 (Seven Lakes Drive)

**Southern Moore CTP Meeting
November 30, 2005**

1. Highway Map

- ❖ Included is Summary of Recommendations on Map
 - Any corrections or additions?
 - Are interchanges and grade separations correct?

2. Bicycle Map

- ❖ Limitations on what is shown on CTP Map
 - Only facilities that would be of mutual interest between NCDOT and the local area are shown on the map. This can leave the map that is adopted looking segmented. Additional figures showing complete facilities can be shown in the CTP report.
 - On Road Bike Routes – Only Bike Routes that are on network roads of the CTP Highway Map are shown on the Bicycle Map. The exception is US/NC Bike Routes, they are shown in their entirety regardless of the roadway facility type.
 - Off Road Bike Routes (including greenways) – Only Bike Paths that serve a transportation function and are not purely recreational are shown on the Bicycle Map.
- ❖ Routes on map are NCDOT GIS data
 - Any corrections or additions to on road routes?
 - Any off road routes to add?
- ❖ Included is Summary of Conditions of bicycle route roads
- ❖ Recommendations?

3. Rail and Public Transportation Map

- ❖ *NOTE: Highway network roads will not be shown on final map. They are shown here in case of any transit discussion.*
- ❖ Railroads on map are NCDOT GIS data, which represents RR ROW, not necessarily active RR tracks.
 - All active and still existing?
